Forecast for Wednesday 09 Mar 2022

Weather: Mainly dry overnight and for much of the day with some clear then brighter spells breaking through the quite extensive veil of higher cloud. Cloud thickening to spread periods of occasionally heavy rain from the west from mid-afternoon and during the early evening, which turns lighter late evening and more patchy overnight.

Chance of cloud-free hill tops above 600m: 80% at first becoming 10% from mid-afternoon.

Low cloud and visibility: Good or very good, becoming moderate or poor in rain, very poor in cloud with bases infrequently lowering 600m initially, becoming widespread in later rain, with patches lower down.
